

Immigration is a big issue in America because immigrants try and come into America without the proper requirements. Our Presidential Candidate, Ryan Kimble along with our group The A.I.M Campaign are ready to up the requirements so more things can get done regarding immigration. The requirements should be made to where the person should know how to speak some english, is able to get an education, has the correct paperwork filled out and has to pay taxes in the United States. With all of these issues being resolved, the President would be able to focus on bigger problems that are revolving in America. The Immigration and Naturalization Service (INS) has said that they did not have enough workers nor that they are funded enough.

America In Motion (A.I.M) believes that the immigrant should know how to speak some english, because what do they expect to do when they come to America. They have to show the INS that they are capable of speaking more than a couple words as well. In order for an immigrant to be transported to America, they would need the help from other people and it would be easier for them to get what they needed if they were to talk in English. Many immigrants in the past only learned to say what was necessary, so it is like they tricked the INS just so they could come to America. With the help of A.I.M the INS will no longer be tricked, and the immigrants will need to know more English.

We do know that the immigrants do not have a lot of resources where they are coming from, but we need them to be able to get an education here. If they get an education here it will better their chances of getting a good job, and it will show that they are capable of doing many things. America has problems where people think that the immigrants are getting all of the natural born citizens jobs, which is the case in some matters but not all. With them being able to get an education, they will have to speak English, so these two topics can relate to each other. Education is very important today in America because without it you wouldn't be able to do many things at all.

In order for Immigrants to be able to enter the U.S. they should have to have the correct paperwork completely filled out. They have to have proof that they are the person that they are claiming to be, and if that information is wrong it will lead to consequences. Many immigrants that are in the U.S. right now have tricked the system, and the paperwork allowing them to illegally enter. The paperwork is very beneficial to the immigrants because sometimes the system makes mistakes and says that they are illegal when they aren't. With the paperwork filled out it will make sure that they are not sent back to where they came from.

The immigrants that are in the U.S. should be required to pay taxes, and they will be with the A.I.M campaign in charge. It is not fair to the citizens of America to have to pay taxes, when they people that are entering the country as immigrants don't have to. This issue has many controversies in the U.S. because the people that do have to pay taxes get angry at the leaders because they don't want to pay taxes if everyone doesn't. This issue has to deal with the amount of taxes that have to be paid, and that doesn't only affect immigrants, it affects U.S. citizens as well.

In conclusion, with these four issues being looked at many problems will be solved. The A.I.M campaign along with Kimble will make sure that everything in the people's needs get looked at. If immigrants want to come to America they should be treated like Americans, and have to do the things that Americans do.
